

— PRE-SEED ROUND · 2026

# Food•Mood

The Psychobiotic Nutrition App

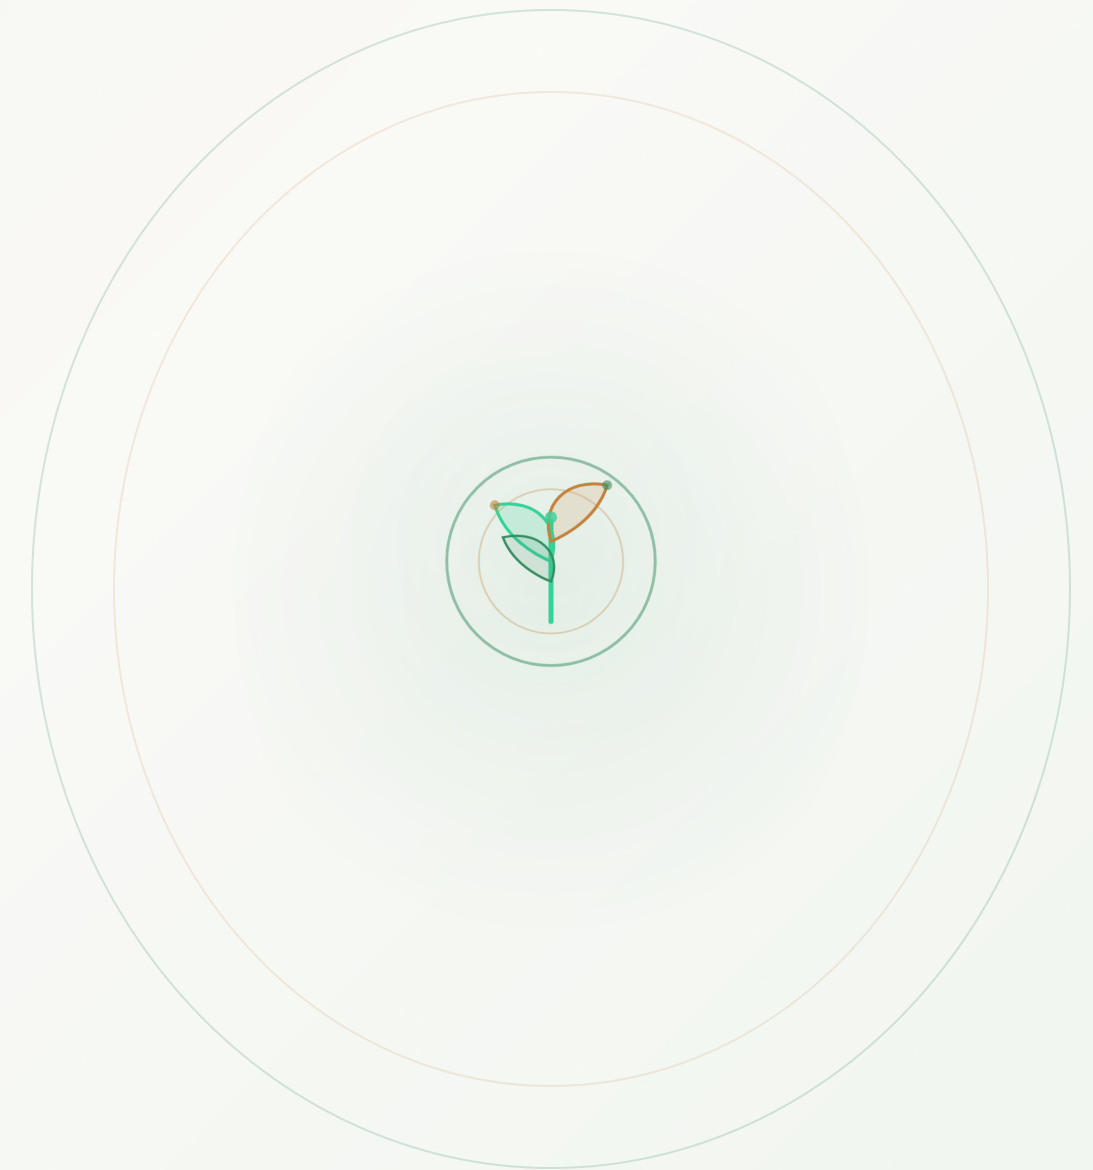

MOOD-FOOD INTELLIGENCE FOR WOMEN'S PREVENTIVE HEALTH

Susana Ferreras Diez · CEO & Founder

[www.food-mood.app](http://www.food-mood.app)

• WomenINvestEU Femtech · June 2026

Psychobiotic nutrition app empowering women to build healthy habits through gamification, challenges & evidence-based gut-brain science.

— PROBLEM

**Your mood affects what you eat.  
What you eat affects your mood.**  
*No category leader is connecting the dots.*

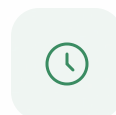

01 1 in 3 women in Europe experiences **anxiety, burnout or hormonal mood disorders**

02 The gut-brain axis strongly influences mood, behaviour and wellbeing — yet **nutrition apps rarely translate this science into daily action**

03 Existing apps count calories. **None address the gut-brain axis.**

04 Women 45+ face hormonal transitions with **zero personalised nutritional support**

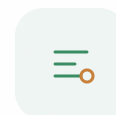

# Food•Mood maps your *emotional state* to functional nutrition.

## CHECK-IN

### Mood Engine

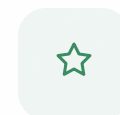

6 emotional states —  
Activation, Calm, Focus,  
Social, Reset, Comfort —  
personalised daily recipes &  
habit tracking via gamification.

## RECIPES

### Psychobiotic Library

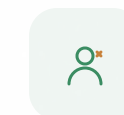

Tryptophan, probiotics,  
adaptogens & fermented foods  
— evidence-based gut-brain  
science in an accessible, fun  
format.

## CHALLENGES

### Transformation Challenges

Guided 7–28 day programs  
with daily tracking, audio  
content & rewards. From €19.  
Challenges turn intention into  
sustained action.

## PREMIUM

### 1:1 Expert Service

High-ticket personalised  
consultations with certified  
nutritional psychiatry experts.  
Delivered via the platform.

# Four pillars that turn a recipe app into an *indispensable daily habit*.

## 01 SYMPTOM DIARY

**Visible patterns.**  
*Lasting change.*

Tap-based daily log — bloating, sleep, energy, brain fog, anxiety, hormones. After 14 days: personalised correlations nobody else can give you.

---

30 sec · 6 symptoms · 3 intensity levels

## 02 FOOD · MOOD INDEX

**Your number.**  
*Your trajectory.*

A daily score 1–100 from the emotional test. Streak + trend + 30-day chart. The Duolingo effect applied to wellbeing — people come back to watch it rise.

---

Daily · Streak · Color of the day

## 03 SUNDAY EDITION

**Your data.**  
*Your science.*

Every Sunday 9am: (1) your personal correlations from the week, (2) curated science — neuroscience, nutrition, longevity, biotech. Filtered by experts. One email.

---

Weekly · Personal + curated · High retention

## 04 CHALLENGES

**Guided programs.**  
*Measurable results.*

7–28 day transformations with recipes, daily audio and tracking. Results measured in real personal data. The primary revenue driver.

---

€19–29 · 8 programs · High LTV

— THE APP

# Simple. Personal. *Yours.*

No install needed. Food·Mood is a PWA — works on iOS, Android and desktop from the browser. Offline capable. No App Store friction.

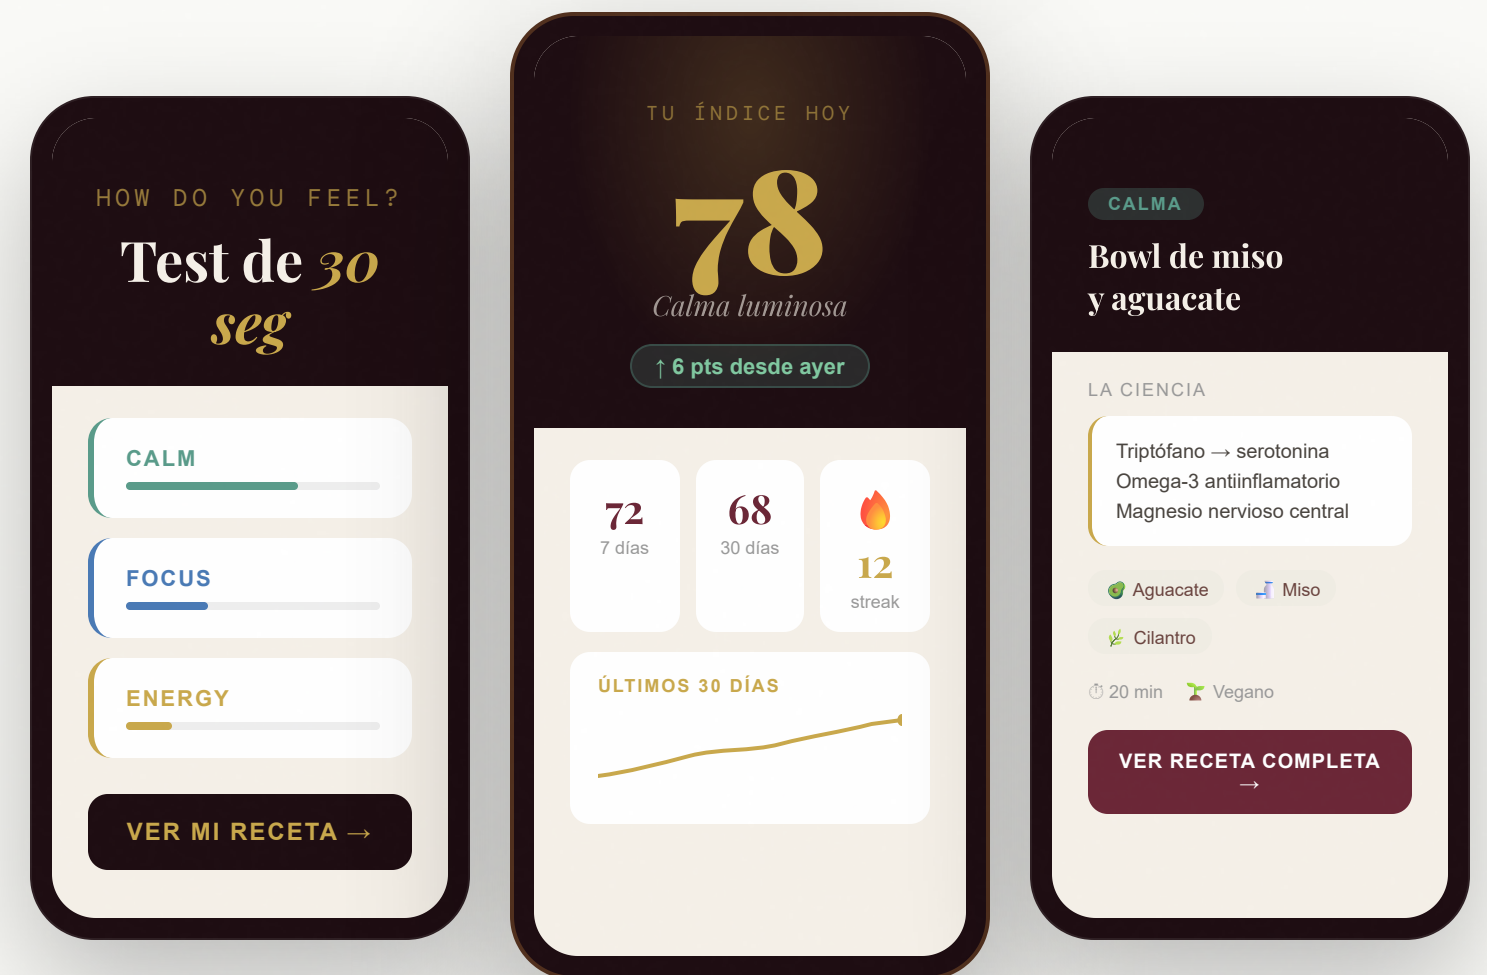

- **30-second emotional test** — sliders, not checkboxes. Your real mix in percentages.
- **Emotional palette** — 60% calm · 25% focus · 15% energy. Your colour of the day.
- **Recipe of the day** — designed for your exact state. With the biochemical mechanism explained.
- **90-day Food·Mood Index** — your trajectory documented in data, not feelings.

Daily index & audio

Report

Insights & reward

# Preventive health through food is the most *scalable, accessible* intervention.

- Reduces dependency on supplements & pharmaceuticals for **mood management**
- Democratises nutritional psychiatry — previously only accessible via **expensive coaching**
- Targets women 45+ (hormonal transitions), adolescents (early intervention) & **corporate wellness**

## UN SUSTAINABLE DEVELOPMENT GOALS

**3** Good Health & Well-Being — preventive nutrition access for all

**5** Gender Equality — closing the women's healthcare gap

# A large and fast-growing femtech market.

*~95M Spanish-speaking women 45+ underserved.*

**95M**

Spanish-speaking women 45+  
Spain · LATAM · Hispanic  
USA

**10M**

SAM — paying-capable digital  
wellness users in target

**€116K**

SOM — 18-month revenue  
run rate  
2,500 challenges + 500  
subscribers

**\$2.5B**

Psychobiotics subcategory  
emerging & uncontested in  
Spanish

LATAM smartphone penetration crossed **70%** in 2024 · App spending women 40+ grew **+34%** in 2023 (Sensor Tower)  
· Every evidence-based gut-brain wellness app is English-only

No player appears focused on *mood-food intelligence* for women 45+ through psychobiotic nutrition.

# Multiple revenue streams.

## *Challenges lead.*

### Challenges

€19-29 per program

7-28 day guided transformation programs with audio, tracking & rewards. The primary revenue driver — high conversion, recurring purchases.

Primary revenue driver

### Subscription

€9 / month

Full recipe library, mood history, audio content, challenges access & personalised plans.

### Corporate Wellness

B2B contracts

Healthy habits programs for companies. Group challenges, team tracking, employer-sponsored subscriptions.

### Data Insights

Future opportunity

Aggregated, anonymised behavioural insights as a long-term strategic asset — potential future revenue from research and public health partnerships.

Post-Seed strategic option

# MVP built. Pre-launch.

## *Scaling starts after close.*

- MVP fully built & live at [food-mood.app](#) — payments integrated, content stack ready, infrastructure tested
- Intentionally pre-launch on users — scaling starts after close, to do it right
- Book written (pre-publication 2026) · 7-episode proprietary audio library complete
- 3 transformation challenges live · 5 more in pipeline — all 8 ready by Q1 2027
- Demand validated through founder coaching practice (paying clients) & Umyko wellness community · WomenInvestEU — June 2026

Pre-Launch

# Founder-led, *science-led*, product-built.

**Susana Ferreras Diez**

CEO · FOUNDER · LEAD DEVELOPER · AUTHOR

- ✦ Psychologist · MSc Food Biotechnology · MSc Gerontology
- ✦ Creator of a kombucha brand — fermentation & gut-health practitioner
- ✦ Full-stack developer — Next.js, Supabase, Stripe, Vercel
- ✦ Author of *"Food·Mood: El placer de estar bien"* (2026)
- ✦ Founder of Umyko wellness community

*"A rare convergence of scientist, technologist & practitioner."*

UNFAIR ADVANTAGE

Psychology + food biotech + gerontology — a combination that simply does not exist in any competing product

Original content, brand, app & direct channel to audience — all built by the founder herself

No dependency on external tech, content or science teams to ship and iterate
